AMENDMENT NO. 1

December 14, 2004

Commissioner of Patents
United States Patent and Trademark Office
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Please amend my Patent Application, as follows:

Amendments to the Claims

<u>Claims</u>

Please amend Claim 1 to read:

- "1. A method of transporting a pharmacologically active peptide across the blood brain barrier into the central nervous system of a living subject, by administration to said subject of a conjugate molecule comprising said peptide covalently linked to a non-peptide mu (μ) opioid receptor agonist, comprising:
- The selection of a non-peptide mu (µ) opioid receptor agonist and a cross-linker, such that when the mu (µ) opioid receptor is modified and covalently linked to the cross-linker and the cross-linker is covalently linked via a peptide bond to the pharmacologically active peptide, the cross-clinker will be able to flex such that the mu (µ) opioid opioid receptor agonist and the
